PACIFIC

BUSINESS COLLEGE

320 POST STREET,

Red Men's Building, Opp. Union Square,

SAN FRANCISCO, CAL.

THE design of this School is to prepare its students for the practical duties of life. Since its organization in 1863, it has qualified a very large number of persons for a prosperous career in business pursuits. Its successful work may well entitle it to be ranked as

THE MODEL COMMERCIAL SCHOOL.

The PACIFIC BUSINESS COLLEGE has its graduates employed in the leading business houses of the entire Coast. The Institution supplies Mercantile Houses, Insurance Agencies, Banks, Railroad and Telegraph Offices, etc., with Book-keepers, Stenographers, Cashiers, Bank Tellers, Telegraph Operators, Clerks, Agents, etc., who invariably prove themselves to be fully qualified for the responsible positions which they occupy.

BRANCHES TAUGHT.

Single and Double Entry Book-keeping, as applied to all classes of business; Shorthand, Type-writing, Telegraphy, Business Penmanship, Commercial Arithmetic, Business Correspondence, Mercantile Law, Business Ethics, Science of Accounts, Actual Business Practice in all styles of Keeping Accounts, including Banking; English and Mathematical Branches, including Spelling, Reading, Penmanship, Grammar, Letter-writing, Word Analysis, Rhetoric, History, Philosophy, Arithmetic, Algebra, Geometry, Trigonometry, Surveying, Navigation, etc., and the Modern Languages.

ACTUAL BUSINESS TRAINING.

Our system of Actual Business Training, combining Theory and Practice, is at once so simple and natural that it needs only an examination of its merits to convince the most skeptical of its superiority over all other systems. No person of ordinary intelligence and application can go through such a course of training without becoming a thorough and practical accountant. Many of the most successful and influential business and professional men of the City and Coast may be numbered among our graduates.

LIFE SCHOLARSHIP, $75.

This is the only Business College in the State that issues Life Scholarships. As carried out at this Institution, they offer many advantages. A Life Scholarship entitles the holder to instruction in all the branches of the Full Business Course, as given in the "COLLEGE REVIEW," until he graduates, with the privilege of review whenever it may suit his convenience. We also issue Six Months' Scholarships for any or all the studies of the College at very reasonable rates. Students may pay by the month if they so desire.

INDIVIDUAL INSTRUCTION.

Individual instruction is given in all departments of the College. In the Business Course the class system is entirely discarded, except for lectures, general reviews, and practical exercises on the black-board. Thus each student receives all the advantages of private instruction, and is enabled to advance as rapidly as his ability and application will permit.

THE COLLEGE HALLS.

In all respects we have the finest school-rooms on this Coast. They are large, well ventilated, elegantly furnished, and command a splendid view of the City and its environs. Every apartment has a sunny exposure, and is flooded with light and with fresh, pure air. The ceilings are sixteen and a half feet in height; and the several rooms have thirty large windows, furnished with inside blinds

NO VACATIONS.

We have no vacations and no term divisions. Day and Evening Sessions are held during the entire year. Day Sessions from 9 A. M. to 12 M., and from 1:30 to 4 P. M.; Evening Sessions from 7 to 9 P. M. Students may commence at any time and pursue their studies without interruption.

For further information call at the College Office, 320 Post Street, or send for "THE PACIFIC BUSINESS COLLEGE REVIEW," containing full particulars in regard to College Departments, Courses of Study, Methods of Instruction, Rates of Tuition, etc. Visitors always welcome.

SAN FRANCISCO, CAL.

THIS Institution, conducted by the Fathers of the Society of Jesus, was opened for the reception of students on the 15th of October, 1855. On the 30th of April, 1859, it was incorporated and empowered to confer degrees and academical honors in all the learned professions, and to exercise all the rights and privileges common to any other literary institution in the United States. The design of this Institution is to give a thorough

ENGLISH, CLASSICAL, MATHEMATICAL and PHILOSOPHICAL

EDUCATION.

IT IS INTENDED FOR DAY SCHOLARS ONLY

The Course of Studies embraces the Doctrine and Evidences of the Catholic Religion; the Greek, Latin and English Languages, Poetry, Rhetoric, Elocution, History, Geography, Arithmetic, Bookkeeping, Mathematics, Chemistry, Mental, Moral and Natural Philosophy.

Besides the Classical, there is a Preparatory and Elementary Department for the younger students. Its object is to qualify the pupil for the higher studies.

This Institution, provided with a full staff of Professors, presents the highest advantages for the mental and moral training of the students.

The College having been removed in January, 1880, to its new and permanent location in one of the most eligible parts of the city, extends over a whole square, bounded by Grove, Franklin and Hayes streets and Van Ness Avenue, and possesses the most ample accommodations and improved conveniences for 1,200 students.

Besides the required Reception Rooms and Offices, large and lofty halls and stairways, several Library Rooms and Debating Halls, distinct play-grounds with covered walks and porticos for the larger and smaller students, the buildings contain a full complement of very capacious school rooms, well lighted and ventilated, and furnished with the most approved modern conveniences. They possess also a large and well appointed Chapel for the Religious Exercises, and a College Hall 100x145 feet internal dimensions, with spacious platform and stage suitably furnished and arranged for Scholastic Exhibitions, Dramatic Representations, Lectures and other public exercises.

The Scientific Department contains lecture rooms for Physics and Chemistry, a Chemical Laboratory and an Extensive Cabinet of Physics, rooms for qualitative and quantitative analysis, engine rooms with magneto-electric machines, battery rooms, complete telegraphic stations, rooms for preparations, balances, spectroscopic studies and other scientific experiments and investigations, Museum of Mineralogy, Geology and choice collections of natural objects and curiosities of different kinds, and it is furnished with a very large and choice collection of Philosophical and Chemical Apparatus ordered from the best constructors of Europe and America, and with all that is necessary for lecture demonstrations and experiments, for private study, and the most complete and delicate chemical analysis and manipulations.

By frequent additions of whatever can be supplied by the best modern inventions, both at home and abroad, this Department has attained a very high degree of completeness and efficiency well calculated to afford to advance students a most valuable opportunity of acquiring a thorough scientific training and education.

STUDENTS ARE RECEIVED AT ANY TIME DURING THE SEASON FROM JULY TO MAY.

The Institution is Open to the Public, and Visitors are Always Welcome.
